MUSIC KIDS LOVE®

ComposeCreate.com

It's easy to think that there's nothing truly fresh in holiday music anymore. Who needs more "Carol of the Bells" or "Jingle Bells" arrangements if they all sound pretty much the same? But *these* arrangements are different and if you'll give them a chance, you'll see why this is truly Music Kids Love®, Music Teens Love®, and Music Adults Love®. We're a smaller publisher, but that's our strength since we've been able to assist our customers in more personal and comprehensive ways for 26 years now! Please let us know how we can help you flourish!
~ Wendy Stevens

Audience-Participation Music

We know that when we make music *together,* everyone has fun! These pieces invite the audience to tap (or cup tap) a simple rhythm while a pianist plays the music. This will be the talk of your recital and will impress parents and affirm that they have made the best choice of teachers for their student!

Early Elementary Winners

Students just beginning lessons should have special music that sounds impressive, just like everyone else! We specialize in composing impressive music at early levels and these pieces are sure to dazzle and delight your students.

Elementary Winners

Our extensive elementary holiday collection includes unique music with impressive glissandos, spy sounds, the "best, easy 'Carol of the Bells'," and tender mature sounds worthy even of teens and adult students' interests!

Late Elementary Winners

Late elementary students aren't quite to the level of "impressive" music, but these solos add that level of impressiveness and sophistication to their playing! Plus, the "Merry and Bright Short Sheets®" are a great collection to own since all three fresh arrangements are only one page and busy students can learn them quickly!

Early Intermediate Winners

These masterfully arranged solos shine as some of our most popular and distinct! For example, notice how the inversions in "O Holy Night" actually *move* the piece forward instead of the stationary and monotonous sound of typical broken root position chords.

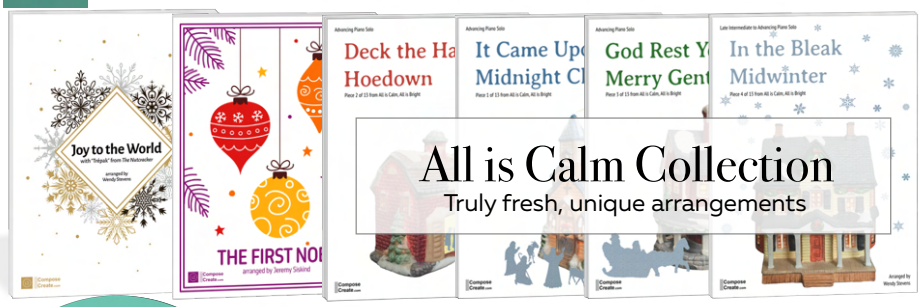

Intermediate Winners

Even though these are only mid-intermediate arrangements, they sound so sophisticated and mature that teachers utilize these to play in church and at recitals when there's not much time to practice. Students love them too because of the nuanced and more contemporary sounds.

Late Intermediate - Advancing Winners

All is Calm Collection

Truly fresh, unique arrangements
